

Global Changes / Educational Challenges

The challenges facing science teachers have never been greater.

Tell us how you are meeting them in your classroom.

Your name was selected from a database of high school science teachers from all 50 states and the District of Columbia. Your answers are very important to the success of this project. Our random sample has been generated scientifically and without your participation we will not be able to accurately describe the opinions and experiences of teachers in schools and communities such as yours.

Please use a blue or black ink pen to answer the questions and mail your completed questionnaire back to us in the postage-paid envelope provided.

The National Survey of American Science Teachers

A Confidential Survey of High School Science Teachers

Conducted by the Survey Research Center at Penn State

National Survey of Science Educators

Thank you for participating in this survey!

We begin with some questions on teaching and curriculum. If you teach different kinds of chemistry classes (such as AP chemistry), please give answers that refer to the class with the largest enrollment at your high school.

- 1. Thinking about how you lay out your Chemistry course for the year, please indicate how many class hours (40-50 minutes) you typically spend on each of the following broad topic areas.**

	Not Covered	1 - 2 hours	3 - 5 hours	6 - 10 hours	11 - 15 hours	16 - 20 hours	20 hours or more
Scientific method and nature of science	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Atomic structure	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Periodic table	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Carbon cycle (or geochemical cycles)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Nuclear chemistry and radioactivity	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Organic chemistry	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Recent global warming (last 150 years)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Biblical approaches to the origins of matter	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

- 2. Whether or not you selected "Recent global warming" above, please tell us if this topic is covered in any of the following classes at your school.**

	General or college prep	AP or elective	Not taught, to my knowledge
Biology	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Earth Science	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Environmental science	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Social studies	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

3. Below is a list of more specific topics related to climate change. Did any of these come up in class? In answering, think about the *entire last year* that you offered this class.

	Covered as part of my lesson plan		Covered in response to student questions	
	Yes	No	Yes	No
Greenhouse effect	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Carbon cycle	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Ice ages	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The medieval warming period	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Solar variability	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Ocean acidification	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Sea level change	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Seasonal plant/animal life events (i.e., plant flowering, migration) that respond to climate	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Changes in water quantity and quality	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Changes in ice and snow cover	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Changes in precipitation	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Events described in the Bible such as Judgment Day or Noah's flood	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

4. Please indicate your level of agreement with each of the following statements if they apply to your classes in chemistry (otherwise select "Not applicable").

When I do teach about climate change...	Strongly Agree	Agree	Disagree	Strongly Disagree	Not applicable
I emphasize that average global temperatures have risen in the last 150 years.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I emphasize that natural cycles have produced warming events throughout Earth's history.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I emphasize the scientific consensus that recent global warming is primarily being caused by human release of greenhouse gases from fossil fuels.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I emphasize that many scientists believe that recent increases in temperature is likely due to <i>natural</i> causes.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I encourage students to debate the likely causes of global warming.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I encourage students to come to their own conclusions about the causes of global warming.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

5. Some curricula also include discussions about potential solutions or steps students can take to address challenges of climate change. Please indicate whether or not you discussed any of the following.

	Discussed in Class	
	Yes	No
Policy solutions to address change incentives such as cap and trade or carbon taxes.	<input type="radio"/>	<input type="radio"/>
Efforts to make current technologies more efficient such as hybrid cars or alternative energy sources.	<input type="radio"/>	<input type="radio"/>
Technologies to mitigate and adapt to the effects of climate change such as geo-engineering.	<input type="radio"/>	<input type="radio"/>
Things students can do themselves such as walking to school, or turning off lights.	<input type="radio"/>	<input type="radio"/>
Potential career opportunities related to conservation, new energy technologies or environmental policy.	<input type="radio"/>	<input type="radio"/>

6. Please indicate your level of agreement with each of the following statements as they apply to your classes in chemistry (otherwise select "Not applicable").

When I teach about organic molecules (including answering student questions). . .	Strongly Agree	Agree	Disagree	Strongly Disagree	Not applicable
I emphasize the scientific consensus that the Earth is roughly 4.5 billion years old.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I emphasize theories describing how the first organic molecules formed naturally on the early Earth, for instance in a "primordial soup" or using Miller-Urey experiments.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I emphasize the statistical unlikelihood of complex organic polymers molecules forming spontaneously.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I emphasize that radiometric dating techniques are based on faulty assumptions.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
My choices of what topics to emphasize are heavily constrained by my state's content standards.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

7. Some teachers tell us that they acknowledge that human-caused climate change is controversial and adopt particular strategies to do so. Tell us about your approach to each of the following.

	I have done this	I have not done this, but might if the situation were to arise	I would not do this
Give equal time to perspectives that raise doubt that humans are causing climate change.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Allow students to discuss the controversy without me taking a position.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Discuss the controversy in the context of the nature of science.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Discourage debate because I believe most climate skepticism is not based on sound science.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Offer to meet with students after class.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Send an explanatory letter to parents.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Allow students to opt out of portions of the class.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Adhere strictly to standards and not allow discussion that might become controversial.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Avoid all discussion of climate change.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

8. Imagine that you were asked to teach a 2-3 day unit on greenhouse gases and recent global warming. What priority would you give to including each of the following possible topics?

	A high priority	A medium priority	It is not necessary to cover this topic	This topic <u>should not</u> be covered	I do not have an opinion
Destruction of forests	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Carbon dioxide trapping heat in the atmosphere	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Use of aerosol spray cans	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
People heating and cooling their homes	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Depletion of ozone in the upper atmosphere	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Use of coal and oil by utility and electric companies	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Use of chemicals to destroy insect pests	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Incoming shortwave and outgoing longwave energy	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Emissions from industry	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The impact of launching rockets into space	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

9. Some topics can be controversial enough that teachers get pressured or lobbied to either emphasize or de-emphasize it. For each of the following, select all that apply.

	No one	School administrators	Local religious or community leaders	Parents	School board members	Fellow teachers	Other
I have received pressure to teach about human causes of global warming from:	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I have received pressure to NOT teach about human causes of global warming from:	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Now we have some questions on your state's standards and assessments, and textbooks that you use.

10. So far as you know, do your state's science standards include climate change? (Select all that apply.)

- Yes, but it does not include human causes
- Yes, it includes human causes
- Yes, it includes an expectation that students are exposed to "both sides"
- Yes, but human causes of climate change must be taught as a "theory"
- No, but my local school or school district expects me to teach it
- No, nobody expects me to teach it
- I am not sure

11. Does your state currently have an assessment test covering chemistry? (Select all that apply.)

- No
- Yes, a test where scores are reported for school districts but not individual schools
- Yes, a test where scores are reported for individual schools
- Yes, a test that students must pass to graduate

12. Regardless of whether your state has adopted the Next Generation Science Standards (NGSS), do you think the NGSS would:

- Be better for student learning
- Be worse for student learning
- Would not make any difference
- I am not familiar enough with NGSS to have an opinion

} → Why?

13. What is the primary textbook that you use in your chemistry class? Please print your responses.

Title: _____

Author: _____

Publisher: _____

14. Many teachers find they need to go beyond their textbook for content and exercises on the topic of climate change. Please list up to three additional sources you rely on for teaching materials. A brief description is all that is necessary, you do not need to give a full Web address or citation.

15. Have you, personally, ever had a controversy in your classroom involving topics like evolution, sex education, vaccines, climate change, or genetically modified organisms?

No → Skip to Question 16 on the next page

Yes → Please tell us a little about what happened.

Did you learn any lessons from this that you would pass on to a new teacher entering the profession?

Regardless of what you do in the classroom, we would like to ask you a few questions about your own personal views.

16. Which of the following comes closest to your view?

- Global warming is caused mostly by human activities
- Global warming is caused mostly by natural changes in the environment → **Skip to Question 18**
- Global warming is not happening → **Skip to Question 18**
- Other (specify): _____

17. Which of the following statements comes closest to your view?

- Humans can't reduce global warming even if it is happening.
- Humans could reduce global warming, but people aren't willing to change their behavior so we're not going to.
- Humans could reduce global warming, but it's unclear at this point whether we will do what's needed.
- Humans can reduce global warming, and we are going to do so successfully.

18. To the best of your knowledge, what proportion of climate scientists think that global warming is caused mostly by human activities?

- 0 - 20%
- 21% - 40%
- 41% - 60%
- 61% - 80%
- 81% - 100%
- I don't know

19. Where would you place yourself on each of the following 7-point scales?

It's not the government's business to try to protect people from themselves					Sometimes government needs to make laws that keep people from harming themselves		
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
1	2	3	4	5	6	7	

I could easily change my mind about the causes of global warming				I am extremely confident in my beliefs about the causes of global warming			
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
1	2	3	4	5	6	7	

20. Please tell us about your formal education background.

	Select all that apply	Your major	Name of college or university
Associate Degree	<input type="radio"/>		
Bachelor of Arts	<input type="radio"/>		
Bachelor of Science	<input type="radio"/>		
Master's Degree in Education	<input type="radio"/>		
Master's Degree in Science	<input type="radio"/>		
D.Ed. or Ph.D. in Education	<input type="radio"/>		
Ph.D. in Science	<input type="radio"/>		
Other (specify):	<input type="radio"/>		

21. Please tell us about your coursework and continuing education in the sciences. Select "4" for four or more courses.

	Total Number of Semester/Quarter Length College Classes					Total Number of Continuing Ed Courses or Workshops					I would take advantage of such an opportunity in the future	
	0	1	2	3	4	0	1	2	3	4	Yes	No
Biological and life sciences	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Earth and space sciences	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Chemistry and physics	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Courses that devoted one or more class sessions to climate change	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Courses entirely focused on climate change	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Courses entirely focused on evolution	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

22. In what ways do you keep up with scientific debates and advances? Select all that apply.

<input type="radio"/>	I keep up by noting additions and changes to the textbooks I use.
<input type="radio"/>	I keep up through science journalism such as television programs like NOVA, magazines like <i>National Geographic</i> , and the science sections of daily newspapers.
<input type="radio"/>	I keep up through browsing scientific journals such as <i>Nature</i> , <i>Cell</i> , etc.
<input type="radio"/>	I keep up by visiting climate science Web sites sponsored by government, academic or non-profit organizations.
<input type="radio"/>	I keep up by visiting Web sites sponsored by groups or individuals who are skeptical about human causes of climate change.
<input type="radio"/>	I keep up by following links that I receive through social media such as Facebook or Twitter.
<input type="radio"/>	I keep up by taking science courses (not science education) as part of my continuing education.
<input type="radio"/>	I keep up by visiting science education Web sites such as the NSTA, and the National Academy of Sciences.

23. How would you rate your knowledge on each of the following topics:

	I know less about this topic than many other high school science teachers	Typical of most high school science teachers	Very good compared to most high school science teachers	Exceptional: On par with many college-level instructors
Ecology	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Climate change models	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Modern genetics	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Weather forecasting models	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Health and nutrition	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Evolutionary theory	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Finally, we have some background questions.

24. How many years have you taught at *this school*? years

25. What is the *total number of years* you have been teaching? years

26. What type(s) of teaching certificate(s) do you hold? (Select all that apply.)

- Regular or standard state certificate
- Certificate issued after satisfying all requirements except the completion of a probationary period
- Certificate that requires some additional college course work, student teaching, or passage of a test before regular certification can be obtained
- Certificate issued to persons who must complete a regular certification program in order to continue teaching
- Advanced professional certificate (specify): _____
- Other (specify): _____

27. What is your gender? Male Female

28. Which of the following best describes you? (Select one or more.)

- Hispanic heritage
- American Indian or Alaska Native
- White
- Pacific Islander
- Black/African American
- South Asian
- East Asian
- Other (specify): _____

29. What is your present religion?

- Protestant
- Buddhist
- Roman Catholic
- Atheist
- Mormon
- Agnostic
- Orthodox (Greek or Russian)
- Spiritual, but not religious
- Jewish
- Nothing in particular
- Muslim
- Other (specify): _____
- Hindu

30. Which of these statements comes closest to describing your feelings about the Bible?

- The Bible is the actual word of God and is to be taken literally, word-for-word.
- The Bible is the inspired word of God, but not everything should be taken literally, word-for-word.
- The Bible is an ancient book of fables, legends, history, and moral precepts recorded by man.

31. Politically, I usually identify myself as a:

- Democrat
- Independent
- Republican
- Green Party
- Tea Party
- Libertarian
- Other (please specify): _____

32. Would you be willing to participate in a follow-up survey?

- Yes
- No

33. Would you like us to e-mail you a report of the results of this study?

- Yes → Please clearly print your e-mail address: _____
- No

Thank you for completing this survey. Please return it in the envelope provided or mail to:

**Survey Research Center
The Pennsylvania State University
105 The 330 Building
University Park, PA 16802**
